

ICOS+ | Abstract Guidelines for Poster Presentation

Poster presentation guidelines:

- These instructions are written for “PowerPoint” but are applicable to any other software you may wish to use.
 - The poster structure may change depending on the nature of the submitted work. In general, it should consist of the following: Title, author affiliations, introduction, methods, results, conclusions, and references.
 - Dimensions of the poster to: 120cm height x 0,80cm width
- Number of pages (slides): one (1);
- Make sure your text and background have a strong contrast;
- Minimum suggested font size: 24 (20 for references);
- For embedded images prefer .jpeg or .png file formats in a resolution of 72dpi or 96dpi;
- Save as PDF file before printing.

Printing Poster:

In ICOS+, we have formed a partnership with a local printing company (Rio Gráfica) to facilitate the printing and transportation of your poster. It is up to you to make use of the options we have presented.

- After approval of the abstract for poster by the scientific committee, it is up to the author to produce his/her poster;
- Author produces the poster in the dimensions indicated in color or black and white;
- Then, authors can send to the indicated email (geral@riografica.com, local printing company) making reference in the e-mail to the indicated code ([IMPRIOESDRM](#))

- During the poster production process, there may be a need for email exchanges between the researcher and the company for production purposes, adjustments, or corrections.
- Rio Gráfica produces the poster by the price of 24,60€ (Color poster) ; 22,14€ (Black and white poster)
- Payment is made by the authors on the first day of the congress, against withdrawal, based on the amounts indicated and preferably in cash;
- The posters will be available for withdrawal at the congress venue;
- Using Rio Gráfica partner for poster printing is not mandatory but it is advantageous since no one needs to carry posters.
